

Dear Reader,

My name is Ellen Bendin, I am the Australian sole distributor of JOYA®-Massage-Products which create an **entirely new massage experience** – for your clients and for you.

Imagine creating **greater** and **deeper results** with **less effort** by massaging with **precious crystal spheres rotating freely** in handy holders. JOYA®'s Gemstone Massage Rollers are beautifully shaped and excellent to use for relaxing or therapeutic massages, facials and other treatments.

People in Europe, Asia and in Australia have been falling in love with JOYA®'s at first touch – as I did years ago at my Shiatsu Therapist. Since their introduction Massage Therapists and Beauticians who use JOYA® Products in their Spas, Salons, Clinics, Fitness Studio etc. quickly realised that JOYA®'s are unique, different to Stone Massages and offer a **cost effective new treatment** or an **addition** to existing treatments - opening the door to new dimensions for nurturing & relaxation of their client's body, mind and soul!

What makes JOYA® different is a **unique concept** which combines three aspects from the fields of **eastern medicine** and **modern wellness**:

- + relaxation through pure **massage power**,
- + release of blockages through **acupressure**,
- + transfer of positive **vibrations of freely rotating crystals**.

The **feedback** we get all the time is "These JOYA massagers are amazing. Our clients love the feeling of the rolling gemstones on their skin and muscles and as a therapist I enjoy massaging with less effort. What a great idea!"

At the **International Spa & Beauty Expos** in Sydney 2008 and 2009 I had such great response – I was sold out on certain products on the first day. The JOYA® Pen and JOYA® Classics Professional were the most popular due to the suitability and design for professional use.

The oval holder of the **JOYA® Classic** lies **perfectly in your hand** and is the ideal massage tool for **whole body** massages as well as for **targeted massages**. It is very **effective**, can be **easily controlled** and works **close to the body**.

The **JOYA®-Pen** is the most delicate tool and not only perfect for blissful **facial treatments** like a **JOYA® - Rose Quartz Facial** but also for **acupressure/reflexology** and **Baby Massages**.

Five aesthetic tools, elegant accessories and more than 20 precious gemstones including Amethyst, Rose Quartz and Jade – all high quality products made in Germany since 2003 – open the door to new possibilities of **spoiling your valued clients** and make them coming back for more.

All JOYA® Massage Rollers are available in the **Professional Range** - made of a sturdy mineral composite instead of timber. This material is often used in clinics, since it meets **hygiene** guidelines. It is suitable for repeated **cleaning and disinfection**. Simply professional!

Non-practitioners love JOYA® because they are able to massage their partner, kids, friends or themselves and do not get **sore thumbs/hands** anymore from doing it. JOYA®'s also make **beautiful and unique gifts** – a great product for your clients to take home.

Increase your income by offering these unique new treatments - like a **JOYA®- Amethyst Massage** for example! Increase the amount of pressure while **decreasing the physical effort** to your therapist's hands and body!

Start to joya your customers today!

I am looking forward to hearing from you and to answer any questions you might have!

With best wishes from JOYA® - The little island of tranquillity

Ellen
