

JOYA-Australia launches new website with online shop

Published on Wed, 24/02/2010, 01:51:20

JOYA-Australia, sole importer and distributor of German brand JOYA Gemstone Massage products has updated its website, which includes an online shop.

Visitors to the site can view and purchase JOYA's range of different massage tools and gemstones, and accessories including the warming bowl and timber cases.

Ellen Bendin, owner and manager of JOYA-Australia, said:

"I created the new website to appeal to individuals, as well as massage, beauty and crystal therapists working in practices, salons, spas, retreats, etc., [who are] searching for effective massage products and innovative treatments to create deeper results with less effort and for new dimensions to spoil their clients.

"I am excited that I can now easily share tips about massaging with JOYA, testimonials from customers, answers to common questions, news in our chat area and how people can earn money with us or shop for free. I am looking forward to the growth and success of JOYA-Australia."

In conjunction with the launch of the new site, JOYA is currently offering \$10 off all massagers for a limited time.
